Klinghardt Protocols & Biological Medicine Lectures

Fundamental Teaching of Dietrich Klinghardt, MD, PhD.

DVD 5 disc Set: \$125.00

A 5 disc set featuring Dr. Klinghardt describing his system of healing through the 5 levels. A perfect DVD for those who would like to understand Dr. Klinghardt's approach to treating the whole patient; spirit, emotions, and physical body. He describes his assessment system called Autonomic Response Testing. Good for those new to our work, and for those considering becoming a patient of Dr. Klinghardt or our certified practitioners of Autonomic Response Testing, to review before your first appointment. This will answer your questions and help formulate more before your first assessment. This is the first DVD we recommend to all before taking any of our workshops or visiting one of our certified practitioners in Autonomic Response Testing as a primer in our work. A gift of Dietrich Klinghardt to the many people who are suffering needlessly from chronic illness and most importantly focuses on the solutions.

- The Five Levels of Healing
- Autonomic Response Testing and Demonstration
- Heavy Metal Toxicity and Neurotoxin elimination/Electrosmog
- Lyme Disease and Chronic Infections

- **The Vaccine Issue thoughts and guidance**

Lyme Disease Topics on DVD:

Dr. Klinghardt is a modern medical pioneer who has boldly brought Lyme Disease into the forefront around the globe. His successful and clinically documented Lyme treatment protocols are taught in these workshops and lectures. Dr. Klinghardt guides us through his assessment procedures and into the relationship of Lyme Disease to multiple chronic infections that display as similar symptoms. Conditions that are typically found in the Chronic Lyme patient are related to methylation issues and the patients' individual inability to detox, assimilate nutrition, and lymph and blood flow issues. No two patients are alike, and no treatments are totally alike.

Our body is created to handle what nature brings on, but today we are absorbing many manmade "un-natural" environmental and food elements that our body does not recognize and immune system cannot handle setting off the cascade that we are passing onto our next generation. We are beings of light, but our light field and ability to connect to the healing and balanced light has been cut off by a variety of influences and technology. (see EMR lectures) Added to this are emotional factors that are found attached to our DNA (see our APN seminars) which add to the individual issues. Other conditions most found with chronic Lyme patients are: Heavy Metal Toxicity, Parasite Infections, Fibromyalgia, Autoimmune conditions like MS, ALS, Autism Spectrum disorders, immune dysfunction, chronic pain, sleep disturbances and neurodegenerative disorders psychiatric conditions like depression, anxiety, significant concentration issues, memory problems, mimicking early dementia.

Dr. Klinghardt follows evidence based testing and treatments, along with " using the therapies that work" individually and are not taught in medical school today or have been forgotten from the past. (see Injection Techniques workshops) Gleaning years of information and learning from the world's best medical experts to shamanistic experience in all continents, (see Constellation workshops) Dr. Klinghardt is gifted with the ability to pull the information, therapies and natural protocols and share them in a way that many patient have experienced great healing and practitioners can understand and follow. He has developed a system of very accurate muscle testing called "**Autonomic Response Testing**" which we teach in the USA to practitioners, that can isolate the individual root cause for each patient, and helps identify the priority of treatment . Dr. Klinghardt loves to share his gifts with the world and we are delighted to bring these to you here.

The Klinghardt Academy is dedicated to sharing the most up to date scientific research for all health care providers and self -help tools that truly work for patients with tips to care for our world and for future generations. This wealth of information is generously shared for all to learn in the workshops and lectures below.

Neural Therapy & Mesotherapy Course “A”

with Dietrich Klinghardt MD, PhD.

DVD Price: \$400.00

Manual: \$100.00

Our core curriculum consists of: a) Recognizing the contribution of the nervous system to chronic pain and illness, b) the injection procedures using local anesthetics as taught by Peret Dosch (Manual of Neural Therapy According to Huneke, Mathias Dosch, MD, “Illustrated Atlas of the Techniques of Neural Therapy with Local Anesthetics” and the late Franz Hopfer, MD. The only belief system this teaching will adhere to is: “Truth is whatever works” and “nil nocere” (whatever treatment given should be absolutely safe and non traumatic to the patient as possible).

The treatment procedures presented in this teaching require a high degree of safety and also high degree of effectiveness. The Academy is dedicated to the teaching of office-based diagnostic approaches such as careful history taking, neurological and orthopedic examination, skilled palpatory evaluation, applied kinesiology and other diagnostic techniques which have been proven to be valuable in a particular way.

We propose the term “autonomic dysfunction” for any acute or chronic disorder that is affected by dysregulation of the related autonomic ganglia. We embrace the use of homeopathic medications, both for diagnostic and treatment purposes as they have been proven safe and effective in the hands of properly trained physicians throughout the world for over 80 years.

We are dedicated to the teaching of what works and what is safe . Every physician practicing “Neural Therapy” should be trained in and understand the medical model completely, but should not close his mind to the truth of new discoveries or the the rediscovery of old truths.

Topics covered in Course A:

- Segmental Therapy/Mesotherapy
- Scar Therapy, Scar Evaluation and Treatment
- Sinus and Tonsil Treatment
- Ear and Scalp Treatment
- Dental Treatments, Dental charts
- Metal Detox, Protocols
- Neural Therapy Charting
- Needle Safety and etiquette, and the use of injectable
