Dr. Klinghardt is a modern medical pioneer who has boldly brought Lyme Disease into the forefront around the globe. His successful and clinically documented Lyme treatment protocols are taught in these workshops and lectures. Dr. Klinghardt guides us through his assessment procedures and into the relationship of Lyme Disease to multiple chronic infections that display as similar symptoms. Conditions that are typically found in the Chronic Lyme patient are related to methylation issues and the patients’ individual inability to detox, absorb minerals & nutrition, lymph and blood flow problems, environmental issues and more. No two patients are alike, and no treatments are totally alike.

Our body is created to handle what nature brings on, but today we are absorbing many manmade “un-natural environmental and food elements that our body does not recognize and immune system cannot handle setting off the cascade that we are passing on to our next generation. We are beings of light, but our light field and ability to connect to the healing and balanced light has been cut off by a variety of influences and technology. (see EMR lectures) Added to this are emotional factors that are found attached to our DNA (see our APN seminars) which add to the individual issues. Other conditions most found with chronic lyme patients are: Heavy Metal Toxicity, Parasite Infections, Fibromyalgia, Autoimmune conditions like MS, ALS, Autism Spectrum disorders, immune dysfunction, chronic pain, sleep disturbances and neurodegenerative disorders psychiatric conditions like depression, anxiety, significant concentration issues, memory problems, mimicking early dementia.

Dr. Klinghardt follows evidence based testing and treatments, along with “ using the therapies that work” individually and are not taught in medical school today or have been forgotten from the past. (see Injection Techniques workshops) Gleaning years of information and learning from the world’s best medical experts to shamanistic experience on all continents, (see Constellation workshops) Dr. Klinghardt is gifted with the ability to pull the information, therapies and natural protocols and share them in a way where many patients experience great healing and practitioners can understand and follow. He has developed a system of very accurate muscle testing called “Autonomic Response Testing “ which we teach in the USA to practitioners, that can isolate the individual root cause for each patient, and helps identify the priority of treatment . Dr. Klinghardt lives to share his gifts with the world and we are delighted to bring these to you here.

The Klinghardt Academy is dedicated to sharing the most up to date scientific research for all health care providers and self -help tools that truly work for patients with tips to care for our world and for future generations. This wealth of information is generously shared for all to learn in the workshops and lectures below.

Under Our Skin, Documentary on Lyme Disease

DVD 1 Disc: \$20.00 includes discussion guide

for patients and family

An award winning, “eye opening” documentary shedding light on Chronic Lyme Disease, one of the most controversial and fastest growing epidemics of our time. Each year, thousands go undiagnosed or misdiagnosed, often told their symptoms are “all in their head”. Following the stories of patients and physicians fighting for their lives and livelihoods, the film brings into focus a chilling picture of the health care system and a medical establishment all too willing to put profits before patients. Dr. Klinghardt is interviewed in this documentary by a patient who is in the recovery process. Good for new Lyme Patients and supportive family members to understand the disease and impact on the patient and family. We encourage all to see this and to pass this onto you friends and loved ones.

Family Constellation Training: "How to facilitate a session"

With Dietrich Klinghardt, MD, PhD. May 2005

DVD Set: \$300.00

How to access, recognize and resolve emotional blockages and trauma passed from our family line, attached to our DNA from our mother, father or generations ago. Spirit, Mind and Body work as one. Opening the door for clearing these blocks to health and healing on all levels. Constellation workshops are defined as a group of souls agreeing for their mind and body to be present in a sacred circle. The purpose of which is to tap into the collective, ancestral wisdom and energy of humanity, with a strong and experienced and compassionate facilitator, who is well equipped to hold the space and familiar with the latest cutting edge psychotherapeutic methodologies. The experience and the new perspective, offers you a space to find peace, resolution and healing in the context of you in your family soul and the greater soul of humanity. This is a profound therapeutic, healing modality that may be an alternative to counselling or a complement to the therapeutic process.

Our Constellation Training Set includes all the best and most used situations you will encounter today with many in depth Constellation sessions to kick start your practice with facilitating guidance and to give you clear understanding of this very powerful healing method. Demonstrations for each displacement are included for a clear understanding of how to uncover, resolve and clear each situation for positive client resolution responses. This is Dr. Klinghardt's most comprehensive Constellation Training.

Highlights Include:

- **Detailed explanation of the drawing of a genogram**

Mental Field Therapy: 2004

With Dietrich Klinghardt MD, PHD DVD Set: \$300.00

Recommended for those suffering with many traumas in their lives and would like to work on this in the privacy of your own home. A great introduction to the work of Dr. Klinghardt.

This workshop focuses on Dr. Klinghardt’s unique use of Mental Field Therapy (MFT).

MFT is one of 3 components of the full APN treatment. (MFT+PK+ART = APN)

Learn this simple, easy, most powerful and deepest technique for healing. Autonomic Response Testing assessment is not essential for using “MFT”, making this a must have tool who follow our work.

[Neural Therapy & Mesotherapy Course "A"](#)

with Dietrich Klinghardt MD, PhD.

DVD Price: \$400.00 Manual: \$100.00

Our core curriculum consists of: a) Recognizing the contribution of the nervous system to chronic pain and illness, b) the injection procedures using local anesthetics as taught by Peret Dosch (Manual of Neural Therapy According to Huneke, Mathias Dosch, MD, "Illustrated Atlas of the Techniques of Neural Therapy with Local Anesthetics" and the late Franz Hopfer, MD).

The only belief system this teaching will adhere to is: "Truth is whatever works" and "nil nocere" (whatever treatment given should be absolutely safe and non traumatic to the patient as possible).

The treatment procedures presented in this teaching require a high degree of safety and also high degree of effectiveness. The Academy is dedicated to the teaching of office-based diagnostic approaches such as careful history taking, neurological and orthopedic examination, skilled palpatory evaluation, applied kinesiology and other diagnostic techniques which have been proven to be valuable in a particular way.

We propose the term "autonomic dysfunction" for any acute or chronic disorder that is affected by dysregulation of the related autonomic ganglia. We embrace the use of homeopathic medications, both for diagnostic and treatment

purposes as they have been proven safe and effective in the hands of properly trained physicians throughout the world for over 80 years. We are dedicated to the teaching of what works and what is safe. Every physician practicing "Neural Therapy" should be trained in and understand the medical model completely, but should not close his mind to the truth of new discoveries or the rediscovery of old truths.

Topics covered in Course A:

- Segmental Therapy/Mesotherapy
- Scar Therapy, Scar Evaluation and Treatment
- Sinus and Tonsil Treatment
- Ear and Scalp Treatment
- Dental Treatments, Dental charts
- Metal Detox, Protocols
- Neural Therapy Charting
- Needle Safety and etiquette, and the use of injectable
