The Principles: Mobilization – Transport - Excretion

2. Saturate system with good liquid multi minerals added to daily water.
3. Add electrolytes to water, increase water intake and kidney profusion
4. Desensitize system to toxins: Low Dose Immunotherapy
5. Support cellular activities to facilitate the detox process and restore the system (**NanoVi** – bio-identical signaling)
6. None of the primary products used for detox are good mobilizers of mercury (DMPS, DMSA, EDTA)
7. **Best Mobilizers: Cilantro**, APN- PK work (Trauma Treatment), Physics (**Bemer** -Pulsed EMF), Far Infrared Sauna, Ion Foot Bath, Acupressure, EAV, Homeopathy, Energetic Detox Desensitization (provocation/neutralization)
8. Transport through the cell membrane: phospholipids, liposomal glutathione
9. Never forget: **load the system with binders before any of this!!!**

Procedure:

1. Slowly titrate the cilantro tincture to mobilize: 1 drop twice daily until you get to 2 dropperfulls (= 30 drops), 3 x daily. (30 min. before each meal)

3. If chlorella is not tolerated, use **Zeolite**, start with 1/2 capsule or 1/2 scoop and slowly increase to 2 capsules or a full scoop, away from all food or vitamins
4. [NanoVi Device](#), improves repair of cellular damage and restores energy levels, use daily to counteract the burden of detox
