<b>DVD Pre-order: Attendees:</b>	<b>\$ 350.00</b>
<b>Non Attendee:</b>	<b>\$ 500.00</b>

This seminar will focus on **Lyme Disease and root causes of problems** giving participants new tools and **individualized treatment options**. Participants will understand Lyme disease and the illnesses that look like Lyme but are not. We will present the most important diagnostic methods including Dr. Klinghardt's Autonomic Response Testing, so that parents of Autistic children or Lyme sufferers who have not found the help they need can chart the road to their own recovery and are given alternative tools that are not requiring lab work or expensive tests. **Hidden dental infections and accurate assessment with the relationship to Lyme Disease with be highlighted.** We have also developed non- prescription alternatives to all treatment modalities and will present these in the self- help sections of this workshop to include **"CIRS" Chronic Inflammatory Response Syndrome, Glyphosate's impact on our health, Preconception health for mothers with lyme, new detoxification techniques, Aluminum Chem Trail, Mold, Apheresis Treatment, Rope Worm Parasite Protocol, cell phone and computer safety, light/sound therapy, positive use of frequencies for treatments, for the mind and most effective and safe self- help modalities of 2016 for Body, Mind & Spirit.**
