

**Dr. Klinghardt to lecture on Lyme Disease.**  
**Lyme Patients are welcome to register for part or the full event.**

**Biological Medicine 2014:**  
**Healing Lyme Without Antibiotics**  
*The treatments that work including self help tools.*  
*New Insights, New Diagnostic Tools, New Lyme Insights*  
*New Treatments: New Health*

***Dietrich Klinghardt MD, PhD and guests***

**May 2-4, 2014**

**Bellevue Hyatt Regency**, 900 Bellevue Way, Bellevue, WA 425-462-1234  
 Room block: \$135.00 plus tax      Cut off April 14, 2014

<b>DVD Pre Order:</b> full conference	\$350.00	<b>Lyme Lecture DVD \$50.00</b>
<b>3 Day Intensive:</b>	Fee: <b>\$745.00</b>	
CME Units Westbrook University:	<b>\$ 45.00</b>	
Pre-Seminar Supportive Protocol Workshop	<b>\$150.00</b>	<b>Sat. Evening Lyme Talk: \$50.00 (non-attendees)</b>

This seminar will focus on **Lyme Disease and root causes of problems** giving participants new tools and **individualized treatment options**. Participants will understand Lyme disease and the illnesses that look like Lyme but are not. We will present the most important diagnostic methods including Dr. Klinghardts' Autonomic Response Testing, so that **parents of Autistic children or Lyme sufferers who have not found the help they need can chart the road to their own recovery and are given alternative tools that are not requiring lab work or expensive tests**. We have also developed non-prescription alternatives to all treatment modalities and will present these in the self- help sections of this workshop to include ***Preconception health for healthy baby outcomes, new detoxification techniques, Aluminum Chem Trail, Mold, Apheresis Treatment, Rope Worm Parasite Protocol, cell phone and computer safety, light/sound therapy for the mind and most effective and safe self- help modalities of 2014 for Body, Mind & Spirit.***

Dr. Klinghardt and his team specialize in the treatment of chronic complex illness with a focus on two biotoxin illnesses and the many symptoms caused by it: late stage **Lyme disease** and **Autism**. Together with his team of naturopathic physicians he developed successful, safe and simple strategies for the

treatment of chronic and **late stage Lyme disease** - without the need to use antibiotics. To his surprise, a modification of the same approach worked equally well for **Autism**, **MS**, many **Autoimmune** and **Mental disorders**, **CFIDS** and **conditions which have no name yet**. His journey and his successful diagnostic and treatment strategies will be presented in detail in this intensive. Beyond Borrelia and the co-infections we will carefully explore the synergism of **mold**, **parasites**, **electromagnetic radiation**, **metal toxicity** and **“the 7 factors”** as the true cause of the patient’s disabling symptoms.

We will discuss and demonstrate the details of diagnosing and **treating the devastating impact of mold exposure in our homes and work environments**. The **Mental and Physical symptoms of Mold Illness**, late stage Lyme disease, **EMF Sensitivity and Heavy Metal Toxicity are overlapping and interdependent**. Today we need - more than ever - a clear diagnostic process and affordable safe treatment options to guide us successfully through the maze of what is now called “chronic inflammatory response syndrome” (CIRS).

- The home of the patient: inflammatory electromagnetic radiation (EMR), water damage and mold, indoor toxins. Science, diagnosis and mitigation
- Correctly using the right instruments to diagnose home and office EMR exposures: hands-on instructions. The synergy of mold and EMR. A survival guide
- Overlooked biofilm treatments: liposomal compounds, cistus incanus, EDTA, iodine, enzymes, **Biocidin**
- New Rope Worm Treatment: Diagnosing and treating parasites: substantial advances in autism-and Lyme treatment by addressing microscopic and macroscopic helminths and protozoa
- Apheresis: Major breakthroughs in toxin elimination, including Aluminum findings. Safe, hitherto unknown, and yet safe uses of EDTA and DMPS in chronic illness as anti-oxidant, biofilm breaker, biotoxin removal agent and safe restorative for the autonomic nervous system. Safe and effective biological alternatives.
- The Klinghardt Lyme cocktail: the whole protocol, including how to create inexpensive liposomal remedies in your kitchen. Effective self- treatments. How to be regain autonomy in the midst of a devastating illness
- The Klinghardt autism protocol. Self- help for the parents
- Using MFT, ART and neural therapy correctly as an adjunctive tool
- Klinghardt protocol for the non-invasive treatment of CCSVI
- Tips for the current safe use pulsed fields: PEMF, and other self help beneficial tools.

### **Workshop:**

**May 2, Friday** 9 am – 12 pm: Bellevue Hyatt Regency, Bellevue, WA

**Klinghardt Supportive Protocols with Andreanna Rainville, RN, LMP**

*Patients welcome. Learn Dr. Klinghardt’s most accurate, non- invasive assessment tools.*

**Seminar: with Dr. Klinghardt: Bellevue Hyatt Regency, Bellevue, WA**

**Day 1: Friday** 1 pm – 6 pm

**Day 2: Saturday** 9 am – 5:30 pm **Lyme Lecture: 7 pm – 10:00 pm (patients welcome)**

**Day 3: Sunday** 9am – 1 pm

*To register:* contact
